Dominik Schenten, PhD

“Innate regulation of humoral immunity to West Nile Virus”

Tuesday, August 6, 2019
8:00 a.m. - 9:00 a.m.
COM-T Room 5120

Dominik Schenten trained for his Ph.D. with Klaus Rajewsky at the University of Cologne and Harvard University, studying the development and function of Germinat Center (GC) B cells. For his post-doctoral training, he joined the laboratory of Ruslan Medzhitov at Yale University, where he studied the mechanisms of innate control of adaptive immunity. He joined the faculty of the University of Arizona in 2013.

This University of Arizona event is sponsored by the Division of Infectious Diseases, Department of Medicine, UA College of Medicine - Tucson. It is open to the public, particularly community physicians and other interested health-care professionals.
